Midterm Project

Kieran Jones

Site Demo/Progress

(Continued in repo files)

Code Snippets

01

Object-fit: contain

Keeps images from distorting from within their containers

https://www.codestudy.net/blog/maintaining-aspect-ratio-of-a-stretched-flex-item/

```
img {
  width: 100%;
  height: auto;

  /* https://www.codestudy.net/blog/maintaining-aspect-ratio-of-a-stretched-flex-item/ */
  /* keeping images from distorting */
  object-fit: contain;
  object-position: center;
}
```

Code Snippets

02

Dropdowns

Used in both sidebar and mobile nav

https://www.w3schools.com/Css/css_dropdowns.asp

```
/* dropdown arrow code based on w3schools
https://www.w3schools.com/Css/css_dropdowns.asp */
.dropdown {
  position: relative;
}

/* Style the dropdown button */
.dropdown_button {
  background-color: #FFF;
  color: black;
  margin:1%;
  font-size: 1rem;
  border: none;
  cursor: pointer;
}

/* Dropdown content */
.dropdown_content {
  display: none;
  position: absolute;
  background-color: #FFF;
  width: 12rem;
  box-shadow: 0 0.5rem 1rem 0 rgba(0,0,0,0.2);
  z-index: 999;
}

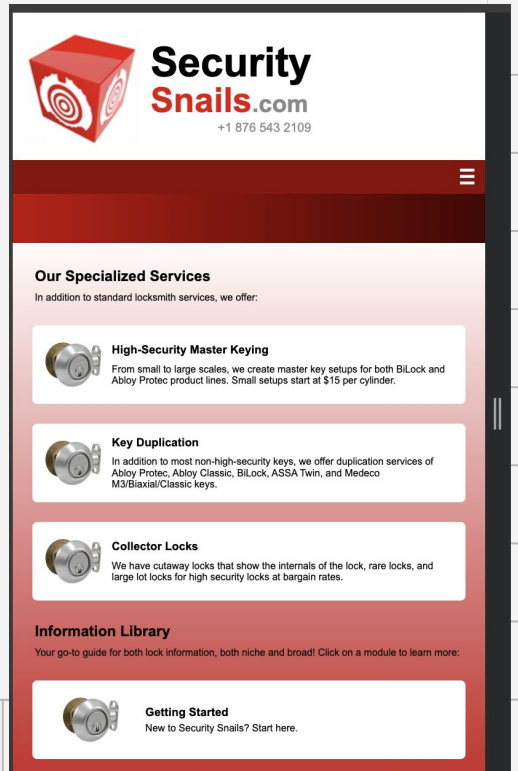
/* Links inside dropdown content */
.dropdown_content a {
  color: black;
  padding: 0.75rem 1rem;
  text-decoration: none;
  display: block;
}

/* Change color of dropdown links on hover */
.dropdown_content a:hover {
  background-color: #EDEDED;
}

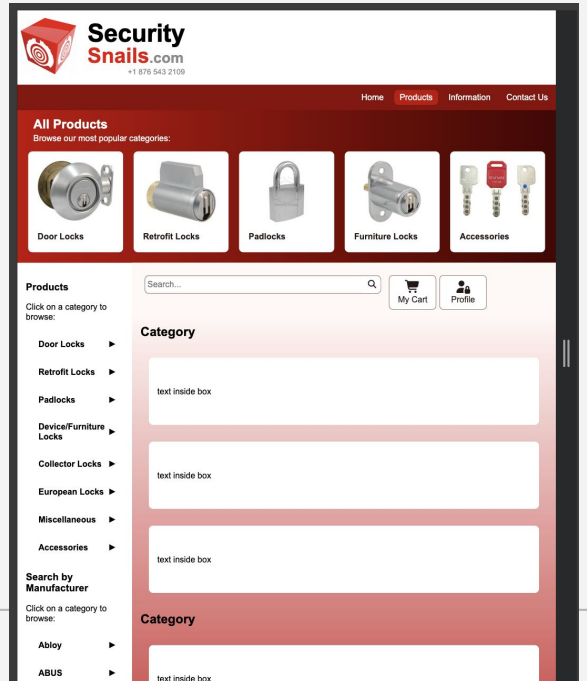
/* Show the dropdown content on hover */
.dropdown:hover .dropdown_content {
  display: block;
}
```

Media Queries

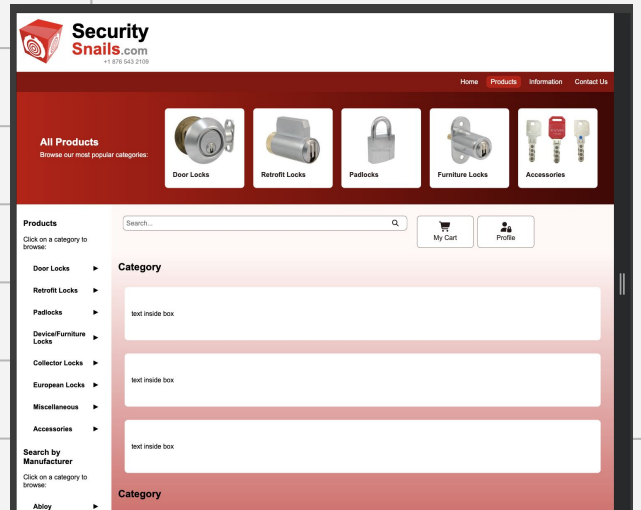
Mobile (<768px)



Tablet (768-1024px)



Desktop (>1024px)



Next Steps

01

Information page and Contact Us page

Working on formatting the information and contact us page: have been mostly focusing on the home page

02

More mobile formatting

Fixing articles to be larger text, flex-direction column. Incorporating sidebar into mobile.

03

Filling in content

Replacing dummy content with appropriate text and images

Thank You!
